# WHO WE ARE

**ACTION AGAINST HUNGER IS LEADING A GLOBAL MOVEMENT TO END HUNGER IN OUR LIFETIMES. IT INNOVATES SOLUTIONS, ADVOCATES FOR CHANGE, AND REACHES 25 MILLION PEOPLE EVERY YEAR WITH PROVEN HUNGER PREVENTION AND TREATMENT PROGRAMS. AS A NONPROFIT THAT WORKS ACROSS MORE THAN 50 COUNTRIES, ITS 8,300 DEDICATED STAFF MEMBERS PARTNER WITH COMMUNITIES TO ADDRESS THE ROOT CAUSES OF HUNGER, INCLUDING CLIMATE CHANGE, CONFLICT, INEQUITY, AND EMERGENCIES. IT STRIVES TO CREATE A WORLD FREE FROM HUNGER, FOR EVERYONE, FOR GOOD.**

## OUR VISION

**For a world free from hunger.**  
Our vision is for a world in which children and adults have access to sufficient nutritious food and clean water and are able to attain these with dignity. No child should ever die from hunger, and severe undernutrition should be eradicated.

## OUR MISSION

Our mission is to save, improve and protect lives by eliminating hunger through the prevention, detection and treatment of undernutrition, especially during and after emergency crises caused by situations of conflict, displacement, poverty, discrimination, inequality, or natural disaster.

From crisis to sustainability, we tackle the immediate, underlying and root causes of undernutrition and its effects through a multisectoral approach.

By designing our programs with local communities, integrating them into national systems, and working with partners, we further ensure that short-term interventions become long-term solutions.

# IN FOCUS

## OUR INTERNATIONAL STRATEGIC PLAN 2021-2025

Action Against Hunger is governed by a five-year International Strategic Plan (ISP) that provides a shared direction for the 8,300 staff working across our organisation and informs the strategy and plan of action of our more than 50 offices. Our new ISP sets the intentions and ambitions of the network for 2021–2025, and provides a common roadmap to achieving them. International Strategic Plan 2021–2025 (ISP-3) is informed by the increase in the number of undernourished people, especially in the context of other escalating humanitarian needs triggered by climate change, war and conflict. The effects of the environmental crisis are already increasing food insecurity in many countries. The emergence of new

epidemics – such as the global Covid-19 pandemic – are expected to greatly exacerbate existing vulnerabilities. The repercussions from this crisis will last for years and could lead to a doubling in the number of people living in a state of severe food insecurity and to 500 million additional people falling into poverty. To address these complex and escalating humanitarian needs while increasing our impact, ISP-3 provides a shared direction and framework for the crucial work we need to do over the next five years. The four priorities we set for the next ISP will be to save lives, build community resilience, connect and mobilise communities, and create and share knowledge.
